AL HASSAN HASSAN SOLIMAN

Applicant for B.Sc. in Computer Science | Tomorrow's Leaders Scholarship Candidate

📍 Mansoura, Dakahlia, Egypt ✉️ [alhassanahmedsoliman@gmail.com] 📱 [01027863204] 🌐 https://alhassan.vercel.app/home

EXECUTIVESUMMARY&LEADERSHIP PROFILE

High school senior and self-taught software developer passionate about applying Computer Science to solve localized community challenges and expand digital accessibility. Proven leader with experience managing student developer teams under tight constraints, establishing ethical AI peer-learning frameworks, and optimizing operational workflows for small community enterprises. Eager to leverage the **Tomorrow's Leaders Scholarship** to pursue a B.Sc. in Computer Science, cultivating the leadership and technical rigor required to build scalable technological applications across the MENA region.

ACADEMIC BACKGROUND & STANDING

EXPECTED GRADUATION: SUMMER 2027

General Secondary Education (Thanaweya Amma – Math/Science Track)

Mansoura, Egypt

Academic Year	Grade Level	Academic Standing / Percentage	Key Focus Areas
Year 1 (10th Grade)	Secondary Year 1	**82.0%**	Mathematics, Physics, Chemistry, English
Year 2 (11th Grade)	Secondary Year 2	**86.0%** *(Upward Trajectory)*	Advanced Algebra, Mechanics, English Composition
Year 3 (12th Grade)	Senior Year	*In Progress (Target: >90%)*	Calculus, Physics, Computer Science Fundamentals

LEADERSHIP & COMMUNITY IMPACT EXPERIENCE

Project Leader & Initiator — **"The Pharmacy" Interactive Educational Platform** [Live Demo] Recent Project

- **Team Leadership & Coordination:** Assembled and led a 3-member student development team to construct a web application designed to educate community members on pharmacy operations, over-the-counter medicine safety, and household diagnostic tools (glucose and blood pressure monitors).
- **Workflow Optimization & Git Standardization:** Resolved early team friction and disorganized code contributions by training peers on Git and GitHub, establishing a structured version-control methodology for seamless collaboration.
- **Ethical Innovation & Peer Accountability:** To navigate senior-year exam timelines, introduced AI development accelerators while creating a mandatory peer-explanation protocol—requiring team members to verbally defend every code commit to guarantee genuine technical skill acquisition.

Technical Consultant & Developer — **Medical Clinic Management System** [Live Demo ↗] Community Service

- **Community Business Support:** Engineered and deployed a custom digital management system for a local medical clinic (Dr. Ahmed's Practice) to digitize patient booking and record management.
- **Operational & Financial Impact:** Streamlined patient scheduling, significantly reduced administrative wait times, cut paper overhead, and directly assisted the clinic in maximizing revenue and operational capacity.

Founder & Peer Instructor — **High School Student Coding Group** Mansoura, Egypt

- Initiated a local peer-learning study circle to introduce high school classmates to modern web development and logic building, fostering problem-solving skills and digital literacy in the community.

TECHNICAL SKILLS & LANGUAGE PROFICIENCY

TECHNICAL & SOFTWARE CAPABILITIES

`JavaScript (ES6+)` `React.js` `Next.js` `Node.js` `Express.js` `MongoDB` `C# (.NET Desktop)` `Git / GitHub` `REST APIs` `Vercel Deployment`

LANGUAGES & LEADERSHIP COMPETENCIES

- **Arabic:** Native Speaker
- **English:** Working Proficiency (Actively preparing for TOEFL iBT / IELTS for TLU requirements)
- **Core Competencies:** Peer Leadership, Conflict
